

ADRIANA ACEVEDO

UI/UX Designer & Front-End Web Specialist | Shopify · Drupal · Figma to Web

Colombia (Remote) | +57 302 218 2841 | acevedoadriana219@gmail.com | linkedin.com/in/adriana-acevedo

PROFESSIONAL SUMMARY

UI/UX designer and front-end web specialist who has built 300+ product detail pages (PDPs), dozens of product listing pages (PLPs) and a large volume of Shopify pages for prestige beauty and fragrance brands of The Estée Lauder Companies (Clinique, Balmain Beauty, Smashbox, MAC Cosmetics, Bobbi Brown). Turns Figma designs into production-ready, responsive pages in Drupal CMS, Shopify or custom websites, fixing layouts with HTML and CSS and building with JavaScript and TypeScript, supported by Claude and Claude Design. As co-founder of the web design studio Mokub, leads the full UX process for clients, from discovery and wireframes to brand identity, UI design and a live website. Focused on clear visual hierarchy, mobile-first layouts and pages that convert. Business background and full English/Spanish fluency, working daily with US-based teams.

CORE SKILLS

UX Design: User Experience (UX), User Flows, Wireframing, Information Architecture, Usability, Mobile-First Design, Conversion-Focused Landing Pages, Web Accessibility (WCAG basics), Client Discovery

UI Design: UI Design, Figma (design and handoff), Mockups, Prototyping, AI-Assisted UI Design (Claude Design, Google Stitch), Responsive Design, Visual Hierarchy, Typography, Component-Based Layouts

Brand Design: Brand Identity, Logo Direction, Color Palettes, Typography Systems, Style Guides, Brand Consistency

Front-End Development: HTML5, CSS3 (Flexbox, Grid, media queries), JavaScript, TypeScript, Figma-to-Web Implementation, AI-Assisted Development (Claude, Claude Design)

E-Commerce Platforms: Shopify (Admin, Theme Editor, Sections, Templates, Collections, Pages), Drupal CMS (page building, node cloning and references, localization, revision scheduling), Fredhopper Merchandising Studio

E-Commerce & Quality: PDP and PLP Builds, Product Grids, Bundles & Gift Sets, Campaign Pages, Promotional Touts & Banners, Digital Asset Management (DAM), On-Page SEO, UAT Testing, Multi-locale Publishing (US, France), Jira

PROFESSIONAL EXPERIENCE

E-Commerce Web & CMS Specialist (Shopify / Drupal)

Jun 2025 – Present

Expandya | Remote

Client: The Estée Lauder Companies (Clinique, Balmain Beauty, Smashbox, MAC Cosmetics, Bobbi Brown).

- Built **300+ product detail pages (PDPs)** and **dozens of product listing pages (PLPs)** in **Drupal CMS** and **Shopify** for global prestige beauty brands, across US and European storefronts.
- Translate **Figma** designs into production-ready, **responsive** pages in Drupal and Shopify, matching layout, spacing, typography and breakpoints to the approved design.
- Fix and fine-tune page layouts with **HTML** and **CSS** (spacing, alignment, responsive behavior, style overrides) when CMS modules or theme sections fall short of the design.
- Build custom web pages from Figma files with **Claude** and **Claude Design**, shortening the path from design to a working, reviewable page.
- Create and maintain a high volume of **Shopify pages**, landing pages and collections using Theme Editor sections and templates, from UAT to the live store.
- Led holiday gift-set launches end to end, e.g. Balmain Beauty: 6 localized PDPs across 3 locales (US English, France English, France French) and a new **product grid** on 5 PLPs.
- Improve the shopping experience through **visual merchandising** (promotional touts, banners, product grids) and **UX/SEO standards** (single H1, heading hierarchy, meta descriptions), with **UAT QA** before every release and tracking in **Jira**.

Co-Founder & Lead UI/UX Designer

2025 – Present

Mokub (web design, software and AI studio) | Colombia

- Lead the **end-to-end UX process** for clients: discovery, goals and audience, **user flows**, **wireframes**, UI design and launch of the final website.

- Design **brand identities** from scratch for new businesses: logo direction, **color palette**, typography and brand guidelines, later applied across web and social media.
- Design and build **branded websites and landing pages** from client information, applying each client’s colors, tone and visual identity with **mobile-first**, conversion-focused layouts.
- Develop sites with **HTML, CSS, JavaScript** and **TypeScript**, using **Claude** and **Claude Design** to move from mockup to working code quickly.
- Generate and iterate **UI mockups** and **prototypes** with **Claude Design** and **Google Stitch**, presenting design options to clients before development.
- Serve health and beauty businesses in Colombia and the US; lead client-facing sales and design presentations, and produce **AI-generated brand imagery** (Gemini, ChatGPT).

International Customer Service Specialist

Aug 2024 – Feb 2025

American Airlines

- Supported international travelers in English and Spanish, keeping customer satisfaction above 95% in a high-pressure environment.
- Analyzed recurring customer issues to spot service bottlenecks and propose improvements to the customer journey.

Founder & Project Manager

Jan 2024 – Jun 2024

Berracao

- Led the launch of a chocolate and coffee energy bar for the Mexican market, from market feasibility study to export logistics and regulatory documentation.

EDUCATION

Bachelor's Degree in International Business Administration

2021 – 2026

Universidad del Sinú
